

2017

These poems are meant to be pondered over.
There is a message contained in each one.
There is a riddle to be solved.
I hope they may contain meanings for your life.

We Are Made To Experience

We are made to experience.

What in the world does that mean?

As humans beings, we come to experience life.

We come to see and understand the world around us.

This life is an incredible journey.

This journey is infinite.

It will never end.

Did you know that you are hardwired to experience God?

Imagine having a yellow Ferrari and keeping it in your garage your entire life.

What would be the point?

A yellow Ferrari is meant to be driven.

Yet your garage door is closed.

Your yellow Ferrari is gathering dust all around.

In the same manner, you are hardwired to find God.

Did anyone tell you that?

You are the universe.

You just don't know it.

God is hiding inside of you.

The human body is hardwired to find God.

You have free will to discover God inside of you.

This is the great hide and seeks game in the universe.

Inside of you lies the truth.

You just need to open the door.

You just need to take small baby steps.

You can't take a giant leap.

It doesn't work that way.

All the great masters have said the same thing.

The kingdom of heaven lies within.

Yes, we are made to experience God.

Does that excite you?

Does that catch your attention?

Or

Thanks but no thanks.

I'm not interested.

No problem.

You have free will.

The universe won't judge you.

Ponder this over.

You are hardwired to find God.

We Can All Make The Change

We can all make the change.
We can make this world a better place.
Peace can be on earth.
This may seem like a fantasy.
But fantasy's soon become real.
People have prayed for peace for thousands of years.
The sun is rising.
The rays of light are appearing in the sunrise.
These are rays of love, kindness, and compassion.
This is your true state.
You can drop anger, greed, war, and intolerance.
This is not part of your true nature.
All it takes is for you to weed your inner garden.
You can pluck the negative weeds.
A great sigh of relief can take place.
You don't need to carry these heavy boulders.
They only drag you down.
You may think I need this to protect myself.
Yet you are the universe.
You just don't know it.
Humanity has been holding on to darkness for thousands of years.
We think this is our true nature.
We don't know how magnificent we are.
Somehow we have misplaced the jewel of life.
The great masters of the past have said it's inside of you.
Only you can discover this precious jewel.
It takes free will.
Yet you can take a horse to the water.
But you can't make the horse drink..
Well, you can put salt in his food.
Maybe just maybe this is salt.
Maybe just maybe you will have the thirst to discover your true nature.
Ponder this over.
Peace will be on this planet.
The time is now for humanity to wake up from their slumber.
What a glorious day it is.
Mankind is waking up.
No more nightmares.

Welcome Back Home

Welcome back home.
Wasn't that a roller coaster ride?
You had an incredible journey on earth.
Yet you hit a lot of potholes along the way.
That's why it's a journey.
It's not always a smooth ride.
We are throwing a party in your honor.
It's only a blink of an eye that your life on earth has ended.
You did an incredible job.
You learned a lot of wisdom along the way.
It's time to rest and recuperate.
As you know life can be quite stressful down on earth.
All of your stress is now gone.
Can you feel the love in the air?
Can you feel the kindness all around?
This is your true nature.
Bask in it.
You are the light of God.
This is your true state.
This is your true home.
Yes, you had a home on earth and you see it's only temporary.
Everything on earth is temporary.
I don't have to tell you that.
Now is the time to see how incredible you truly are.
You are the universe.
You probably heard that down on earth.
Yet they were just words.
Now you can directly experience that.
No words are involved.
Just a direct experience.
Isn't that amazing?
You are the universe.
Now you know it.
Maybe those great masters weren't so crazy after all.
The kingdom of heaven lies within.
Ponder this over.
You can solve this puzzle.

What A Glorious Day

What a glorious day it is!
I just got up.
It's early in the morning.
The birds are still sleeping.
A snowstorm is coming our way.
The weather is going to get worse hour by hour.
If you can don't go out and drive.
Stay inside.
Every day is a glorious moment to be alive.
I'm so grateful that I feel life is glorious.
I see a signpost of God in my life.
Even when it seems that I hit a pothole in life the situation turns around.
Yes, life is a journey.
There are potholes in life.
That's why it's a journey.
Life isn't a smooth and straight road.
I'm sure you realize that.
There are many ups and downs.
There are many curveballs thrown at you.
They just make you stronger.
I have said many times before that the spiritual path is the most practical path.
Day by day one becomes more aware and conscious of life.
This awareness helps you to have shock absorbers in your life.
You may hit the same speed bumps in life yet you are more at ease.
You don't freak out when they appear.
A person learns not to react to each and every situation.
You learn how to be aware of the moment.
You watch your words.
You don't tweet what comes to your mind at 3:00 in the morning.
You begin to take control of your actions.
A wise man just smiles.
He has nothing to say.
A wise man knows that this is a glorious day.
I'm alive.
What can be greater than that.
Ponder this over.
What a glorious day.

What A Heavenly Treat

What a heavenly treat.
Did you know that heaven lies inside of you?
What, no way.
How could that be possible?
I never saw heaven inside of me.
Are you sure?
This isn't just some philosophy.
This isn't just some mumbo-jumbo.
For thousands of years, the great masters have said the kingdom of heaven lies within.
Ok.
I heard that many times before.
Where is it?
To discover heaven inside of you must use your free will.
You must day by day use your intent to discover your true nature.
You must day by day pull your inner weeds.
Meditation is a key ingredient.
Meditation will help you to tap into your true nature.
We are so distracted by the world around us.
There is a thin layer of dust covering the mirror.
You must make a conscious effort day by day to dust off the mirror of life.
This path to heaven is a path of self-awareness.
Nobody can walk the path for you.
The great masters of the past gave great wisdom.
It's up to you to implement the wisdom.
The path is very simple.
We are very complicated.
The signpost of God is everywhere.
Yet we don't see them.
We are walking around with our cell phones in our hands.
The signposts are there yet we are too busy text messaging.
Heaven is a state of mind.
You must slow down to experience life.
We are constantly in a rush.
I gotta get to work on time.
Wow, no wonder we are a mess.
Ponder this over.
Heaven lies inside of you.

What An amazing Life We Have

What an amazing life we have.
Wow, we are alive.
We are walking on this planet.
We can soak in all the different flavors of life.
Is our life dependent on our conscious state of awareness?
Does our thinking dictate our current state of affairs?
Have you seen people who see life as half-empty?
They are always bitching and moaning about their life.
Yet others see the glass as half full.
The same situations occur but they see how amazing life is.
Yes, life is a matter of attitude.
You can rise beyond your current condition.
You can see the amazing life we have.
This life is an incredible journey.
A wise man rejoices in each and every moment.
Beyond the yin and yang of life lies eternity.
A wise man understands there is no true destination.
This journey is eternal.
You can never clap your hands and say I've learned everything.
Your true nature is beyond tie and space.
You are locked in a human body while you are alive.
Yet your essence is eternal.
Have you ever wondered what is keeping you alive?
You are the universe.
You just don't know it.
I know you are probably rolling your eyes.
What a far-fetched idea.
You must be crazy.
Yet the jewel lies inside.
You have looked for it outside of yourself.
All the great masters have said the same thing.
The kingdom of heaven lies within.
Ponder this over.
You can solve this puzzle.
What an amazing life we have?
Discover the secrete that lies within.
This is your true nature.

When Was the Last Time You Thought

When was the last time you thought?
Are we running this life in the remote control?
Are we just running around in circles?
Do we ever stop and reflect on life?
This world at times seems like we are out of control.
The mass media controls our every move.
Buy, buy, buy is the theme.
You gotta drink this Pepsi in order for you to be successful in life.
The commercial industry spends billions to hook you.
Looks at all these drug commercials today on TV.
There say ever so softly.
This could cause death or a heart attack.
This could cause suicidal thoughts.
Yet take this drug for your problem.
You will be OK.
Does that sound like a good idea?
Yet doctors endorse it and have you take it.
If it was a homeopathic drug they would close the business down.
I truly think we need to think about life.
You need to think about what's going on.
We need to be free.
We need to think outside of the box.
Our attention can't be focused only on the external.
I have said repeatedly that the spiritual path is the most practical path.
I truly mean it.
It encompasses both the external and internal.
It encompasses both sides of the coin.
It's the purest kind of life.
What I mean is that you gather inner wisdom and external wisdom.
We need both of these in this world.
With internal wisdom, you can see beyond the craziness of this world.
You begin to see and think for yourself.
You begin to think outside of the box.
Over time you begin to see your true nature.
You are the universe.
You just don't know it.
Ponder this over.
When was the last time you thought?

When You Step Across The Line

There are rules in life.
When you step across the line there will be consequences.
If you are caught shoplifting you will pay a fine.
If you do it again you will be put in jail.
Some states have a three-strick rule.
That means if you are caught three times you will be put in prison permanently.
That means even if you steal a candy bar for the third time you will go to jail
forever.
Now that's cruel.
Our prison system is based on punishment.
In Northern Europe, they are closing down prisons.
The whole setup is to rehabilitate people.
They treat them with dignity and train them.
Consequently, people change and learn from their mistakes.
Crime goes way down.
Here in the States, our prison system has gone to private corporations running the
system.
As a corporation, they want to have a tremendous profit.
They will skimp all over the place.
They have no interest in rehabilitating anybody.
They would lose money that way.
It's sad but it's true.
Did, you know that you can never step across the line with God?
God will never give up on you.
You have free will.
Yes, consequences happen in this world if you make huge mistakes.
With your free will, you can change for the better.
A spiritual path will help you to live your life more wisely.
You can think before you speak.
You can hesitate even for one second to do an action you might regret.
A spiritual path is practical.
How can you harm someone when you realize you are harming yourself?
If all of humanity had this experience there would be no war or crimes committed.
Ponder this over.
You are a piece of this puzzle.
You can solve this riddle.

Where Do We Go From Here

Where do we go from here?
That's a good question.
We are at a milestone for humanity.
The sun is about to rise over the horizon.
The light is about to shine.
We have been living in darkness for ever so long.
In fact, we think this is our true state.
Anger, War, and hate are normal.
Yet a new dawning is at hand.
Kindness, truth, and compassion is your true state.
You are the universe.
You just don't know it.
We are going from darkness to light.
The golden age of man is coming.
Great transformations are occurring on this planet.
Darkness knows it can't win.
Darkness is only the absence of light.
The pot is being stirred.
Darkness is holding on for dear life.
Look at the positive things going around in this world.
Everything negative is coming and showing itself.
A new way of being is coming onto this planet.
Kindness will lead the way.
No longer will powerful men get what they want if it will hurt others.
A new dawning has occurred.
The old ways of controlling others are over.
My advice to make this change permanent is to look inside of yourself.
Daily pull your inner weeds.
Watch carefully what you say.
If it is harmful don't say it.
Hesitate before you do an action.
Ask yourself does this action have consequences.
If it does don't do it.
Lighting up.
Be happy.
I don't care if you believe in God or not.
If you do these actions the world will change.
Ponder this over.

Where There Is Instrumental

Where there is instrumental people will be having fun.
Music is a gateway to the divine.
Music makes us happy.
Music brings up good memories.
It brings up good times in life.
I can hear a song from my youth and a flood of memories fill my mind.
Each culture has its distinct signature of the music.
We call it folk music.
Well, I must say these folks are unique.
Each one expresses music differently.
I have traveled around the world and love to hear about the different types of each culture.
You can see the web of love that ties us all together.
Music has a way of doing that.
You might not understand the language but you can understand the music.
Music touches the soul.
Maybe when countries have problems with one another they should play music for one another.
Ultimately this would bring both sides to harmony.
Maybe, just maybe they could listen to one another.
Music is a bridge to unite us all.
It talks about the good times and the ways humanity needs to improve.
Bob Dylan started as a protest singer.
In the fifties, folk singers in America talked about freedom and justice.
Each generation uses music to look for a better way of life.
Music has a way for humanity to clean the dirty mirror.
We can truly see we need to change.
We can simply dust off the mirror.
It's that simple.
We think it is complicated.
So, therefore, we don't do anything about it.
Ponder this over.
Let the music fill your soul.
Let the music change your life for the better.
The artists have great messages for mankind.
They are here to help alleviate our suffering.
Imagine a world without music.
I certainly can't.
